CAREER OBJECTIVE

I aspire to pursue a career as a web developer. Although I don't have formal professional experience in the field, I have completed several personal projects that showcase my skills and passion for web development. I am familiar with fullstack development using the Java + React stack, but I am adaptable and enthusiastic about learning any technology in the programming market.

EDUCATION

2022 - 2025 | SÃO PAULO ADVENTIST UNIVERSITY CENTER

Bachelor's Degree in Computer Science

EXPERIENCE

2023/03 - 2024/NOW | BLOOMIN BRANDS INTERNATIONAL

Internship in Data Analysis and BI

Assist in research, collection, processing, data analysis, construction of automations and dashboards. Using Python, Power BI and SQL Server

2024/NOW | FREELANCER

Freelancer in Fullstack Development

Development of web applications working as a fullstack developer using Java Spring on the back-end and NextJS on the front-end.

SKILLS

- Java
 - Spring boot
 - Spring web
 - Spring JPA
 - Spring Security
- NextJS + ReactJS
- Docker
- PostgreSQL
- AWS
